

GRAEME HOWARD

ADDRESS: 2C/20 Charlotte St, Eden Terrace, Auckland MOBILE: (021) 833 372 EMAIL: graeme.g.howard@gmail.com

My name is Graeme Howard, I'm a web developer and designer living in Auckland with more than 13 years of experience in multimedia design.

Using both design & code to solve problems is what I'm passionate about. Whether it's designing a user interface or coding a form in PHP; I'm comfortable in either field.

After 8+ years working in print design I retrained as a web developer. Recently I've been building projects using PHP/Codeignitor, HTML5, LESS, and JQuery. If you are looking for a member for your team, please do get in touch.

SKILLS

HTML5, CSS3, LESS, Javascript and jQuery, PHP and CodeIgniter, Adobe Illustrator, Adobe InDesign, Adobe Photoshop, a range of open source software, I am Mac and Windows friendly.

REFEREES

"Graeme's position involved liaising with a wide range of SME's and Corporate clients on a daily basis to provide a variety of options for their design requirements. Graeme worked closely with our Design Manager and busy sales team and often worked on our large corporate projects. I note that Graeme is very conscientious about the quality of work he produces. Graeme was integral to the launching of our Brand Demand Customer Online Ordering site, working tirelessly to ensure all components were operational by launch date. Graeme also successfully embraced the leadership role for the design team in the absence of the Design Manager."
